The healing codes of the Divine Mother

The healing codes and how to use them

through Isabel Henn June 2014

updated: June 22, 2014

My beloved child, after Marc Gamma, Rilana Jaun and my scribe received the first healing codes from Raphael and me it is time now to assemble these and to tell also something about the correct use. More codes will follow and shall be integrated into this document.

My son Raphael gave the first codes and said a bit about them. I gave them not only for use to the people of Atlantis but already to my beloved humans of Lemuria. They were the first who have received these codes. Some codes I give you now are quite new; this is necessary because not all illnesses as you know them today existed in those times. Also the manipulation of your food that is practiced in your whole world was then unknown. It is irrelevant if they are new or old codes because time doesn't play any role for me, they work now as they worked then, because all is happening in the NOW.

This assembly of codes and the instruction how to use them is NEVER to be sold, but always to be shared free and without any claim or exchange. It is written for the free use by all humans and all beings as I give the codes for the free use by ALL. Each human, each being has a right to use these codes free and without charge. It is also not allowed to change this assembly, unless I give my appropriate personal order for this. Without the authorization through me or as a transfer against exchange the codes will be useless, because they request a certain consciousness and a certain frequency level of the people so that they can be used. I tell you this to stop any ideas for this purpose before they even begin. This is a living document, all new codes and the links to the messages shall be integrated here.

The copyright is first with me, Divine Mother, beyond this also with the here named, independently through whom the codes were given. This can be found in the links.

**Instruction for the use of the codes:**

Well, my child, you will now ask me how to use them. I will explain this with pleasure.

The use of the codes does not replace a visit at your physician.

It is very important that you go into resonance with the codes, that you are in your heart and in unconditional love. You must apply them consciously. Otherwise they will not work. In and behind these codes is a special energy, that will only be revealed and be useful for you when you can increase and hold your vibrations. When you are "in love". Think and write the codes with the intention to heal.

Write them on yourself, other people, animals, plants, your food, your water bottles or jars and even on your main water supply of the building, when you have access to it. Use a pen, your finger or a crystal for writing. You can write the codes directly on the skin, fur, bark or food or you can use a paper or even a band aid or tape. There are no boundaries to your imagination. But it must be handwritten, because your own energies are also involved in this.

You can also imagine how you are writing them, with your finger or a pen. In this way you can use the codes for people and animals who aren't with you. Such is a distance healing possible. Don't let yourself waver that they are not present. You are all connected with me and with each other like with invisible very thin silk threads. The energy will be transferred through your thoughts. It is the intention that is behind it. The more love you give into the codes, the stronger is the effect.

You can write the codes more than once, this increases the security that you don't have written the wrong code; write it one over the other, it doesn't matter when it will be thicker. You can also use a code repeatedly over the day, when you use your finger or a crystal as often until the wanted healing has happened. You can also use more than one code when you want to heal more than one health problem. Write them one after the other. The only exception are the water codes, but it is explained in the links. All links with codes in them are listed at the end of this document. You can find more information there. Please read them.

**And please remember the spaces in the number sequences as they are important.** Without them the codes won't work but it would lead to far to explain it here. Be careful to write the number codes correctly.

I ask you to keep this document (or link) with the correct codes always with you. You can give effective first aid with them in an emergency. Share the document and tell your fellow people about the codes. Talk about your experiences you make with them.

You can find a wonderful instruction under the following link:

At first now the codes for the improvement of your food and your drinking water. I don't want to repeat all, so my scribe copied these informations on my order out of the already given messages from Marc Gamma and Rilana Jaun.

**Codes for the improvement of food:**

"...Subsequent Code-Numbers are applicable for all nutrition and foodstuffs which are no longer of natural origin resp. being processed and altered by processes of the nutrition and foodstuff industry.

These code-numbers may also be applied to foodstuff which are not of confirmed origin nor trustworthy sources. They have to be written only once on the package/can in order to activate the entire re-programming.

24 46 713 Neutralizes gen-manipulated foodstuff. This specific foodstuff will be returned to its original condition with its maximum effect to human bodies.

24 57 892 Neutralizes all toxid components in foodstuff which were introduced during process of production.

24 67 987 Neutralizes all additives which are not natural – which are being added in almost all the processing measures to foodstuff (for economic reasons in order to save money). This Code-Number should be applied always since presently there are insufficient declarations added to almost all foodstuff. This code may be applied always and everywhere even if the meal is being served on the plate already.

24 60 123 Additional Code to be applied for foodstuff (fruits or vegetables) to make it ripen to its full maturity. This Code supports the process of ripening on its cellular level. With all already maturely ripened fruits and veges this code-number should not be applied – since they may otherwise over-ripen and thus will lose their full efficiency and their optimum of nutritional value.

42 67 982 Additional Code-Number for all foodstuff on the brink of moulding. By the effect of this Code-Number such fruits may become again tasteful although they do not look like it. This Code-Number has been invented more for needy cases or for those humans who - by their living conditions - are compelled to feed themselves by such sort of foodstuff. Please do not use this Code-Number in case of any foodstuff which is still quite in order. Otherwise this foodstuff originally - still impeccable – would be turned into some inedible condition.

99 42 167 Additional Code-Number für all foodstuff which carry added parts of alcohol in order to turn them into long lasting condition. This Code-Number neutralizes all alcohol within the foodstuff. It may also be applied to any drink in order to neutralize all alcohol in it – it does not have any effect on its taste – still the alcohol looses all its effect on the human body. This may turn out as essential for all people not being able to tolerate any alcohol in medicaments which were produced on basic alcohol levels. I urgently recommend always again to make use of this specific Code-Number when treating alcoholic addicted people in medical institutions. Neutralization within the particular medicament will lead to some positive effects in the body of an addicted acoholic which thus may reduce his addiction and later eliminate it altogether.

Attention please! Under no circumstances whatever – may this above code be applied for medicaments which were mixed with alcoholic additives in order to gain some desinfactive effects....."
Codes for the improvement of drinking water:

"... While being busy with such process of creation – and this is some secret being hidden by myself – I laid down the key for it – into each and every single drop of water – by way of another Code of Numbers. This constitutes THE VERY COMPONENT OF ALL and simultaneously is the formula of water for its crystal-clear and purest condition.

And this is my gift with this message to all MANKIND here that I herewith publish and submit this highly effective Code-Nos. of Water to you.

I’d like to add here that this very code – as an exception of the rule – was the result of some mututal work of Creator Adonai and the Female Creator Shekinah and for this reason this special code consists of two lines of numbers. You may discover in it one female and one masculine formular which – applied in collaboration – will create some complete harmony in the structure of water.

With application of this Code of Nos. e.g. on some Water-Decanter this water will connect in some holy matrimony called “Chemical Wedding”.

Here now is the Water-Code placed at your free disposal and application to all human people here on earth.

99 77 654 and 44 66 111

The resp. lineage of Nos. should be written down “vis-à-vis” i.e. opposite to each other.

Please, do write down these Nos. keeping carefully the distances between the Nos. as given here!

You may write down this code on any flasks, bottles and drinking glasses from which you take your water (mind please water solely and only – never sweet drinks nor milk).

It will suffice if you write down this code on bottles with mineral water – readily filled (even on Pet-bottles) directly on package foils of some “Sixpack”!

This very Code is meant as just another Tool and is meant as some auxiliary in your very personal and individual process of ascension – very similar to those submitted to you recently by ArchAngel Raphael....."
Codes for healing or staying healthy for humans and animals:

The system that Reiki Doc used in her wonderful article is also used here to achieve a better mapping and finding of the codes.

The healing codes for first aid at heart attacks and strokes are not to replace the call for a doctor and the subsequent professional help. They are meant to prevent worse things until the doctor can come; a FIRST aid until the patient can be delivered to the doctor because right in the first minutes this is so important in these cases. You can of cause use them also during the further treatment in the hospital to speed up the recovery. In these two cases please do NEVER forget to call the emergency doctor parallel to the application of the codes.
